

## TUFDEK™ SYSTEM ADVANTAGE

Tufdek is more than **The World's Strongest Vinyl Decking**, it is an integrated waterproofing system. As a manufacturer of waterproofing products to the deck and roof industry, we ensure all components and accessories are not only tested and compatible but exceed all National Code Standards. The added benefit of Authorized Tufdek Dealers installing the complete Tufdek waterproofing system is the best long-term investment you can make for your waterproofing project.

**Don't just choose Tufdek, choose the Tufdek system!**

## HOW TUFDEK™ IS MADE

# HYDRO PHOBIC

At Tuff Industries Inc. we are committed to developing higher performing and longer lasting vinyl decking products while reducing our environmental impact. The printed surface of our signature brand Tufdek™ vinyl decking is sealed with our proprietary aqueous based hydrophobic polycarbonate top finish. This unique innovation makes Tufdek™ easier to clean and maintain while extending its U.V. protection resulting in a longer lasting product with more vibrant color retention.

There is nothing better than enjoying your deck in the summertime. For those of you who enjoy those full sun exposure days, we recommend the Cool-Step™ designs. These colors provide higher solar reflectivity helping make your outdoor experience on the hottest days more enjoyable. Look for the Cool-Step logo on select colors and choose a product that remains cooler in the sun.
